

Wanted: Undergraduates to join our study in the Gulf of Alaska

The Northern Gulf of Alaska Long Term Ecological Research Site

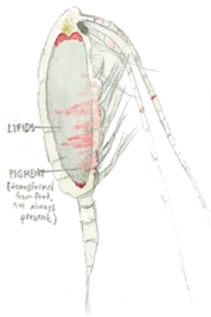

Are you an undergraduate student interested in contributing to the knowledge of the Northern Gulf of Alaska?

This opportunity is open to those who are:

- Enrolled in a program leading to a baccalaureate or associate degree
- Interested in science and technology
- Interested in designing and executing a project that contributes to the NGA LTER
- Available to work in summer 2023

A \$5500 stipend, travel and housing allowance are provided!

Projects are related to the physics, chemistry and biology of the Northern Gulf of Alaska and may involve participating in a research cruise

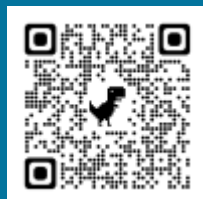

Research Experience for Undergraduates (REU)

More information:

<https://nga.lternet.edu/education-outreach/reu/>

Application deadline:

February 15, 2023

Work with UAF Oceanography faculty to create a project that focuses on the productive ecosystem of the Northern Gulf of Alaska and its significance
